

# Fortunately, this investment has strings attached.

## The HOBBIT

Company Skylark and Anketell Theatrical Production's lavish production of *The Hobbit* is a proven success. Playing to packed houses across the country, it drew an audience of approximately 60,000 over the course of its national tour, and grossed close to \$1 million since opening in August last year.

Company Skylark's liquidators and joint *Hobbit* producers Anketell Theatrical Productions invite expressions of interest for the purchase of the physical production pieces of *The Hobbit*, including puppets, sets and props. The high profit-earning potential of this show cannot be understated; your investment is all that is needed for its highly successful nation-wide tour to resume.

The liquidators are also inviting offers for the puppets, props and sets - as well as full ownership rights - of several other successful Company Skylark productions, including *Charlotte's Web* and *Inside Dry Water*.

Expressions of interest should be submitted to Ferrier Hodgson Chartered Accountants. For more information call Barry Taylor or Geoff Bouchier at Ferrier Hodgson on 02 6257 2155.
